SSExp: Rename after a failed Destroy crashes

Title

SSExp: Rename after a failed Destroy crashes

Status

Assigned To: WinnieNg

Priority: 1

Severity: 1

Status: Working

SubStatus: Dev Testing

Product

Work area: VSS\Beta 1

Product: VSS 98

Area: Explorer

Feature: Rename

Details

Type: Code Defect

How Found: Test Script

Fix By: Beta 2

Resolution: Went't fix-

Results

Discussion

1)In ssadmin, turn on Project Security and se one user to RCA

2) Login to ssexp as that user

3)In ssexp, attempt to destroy permanently file-you will be denied

4)Then attempt to re-name the file

Comments

[WinnieNg 10/15/98 9:16am]  
I think I know where the fix is...

[SteveKr 10/15/98 8:37pm]  
Make sure to check the other place too.
